Auburn University
Auburn, AL 36849

Dear Mr. Perkla,

My name is Hale Akbas, and I am interested in Auburn's computer science program. After visiting many tours of the colleges nearby, I have decided to apply to Auburn University because of its outstanding reputation in STEM. I have heard great reviews from my close friends who are currently attending Auburn University.

Additionally, I am enthusiastic about the Computer Science program at the Auburn University because of the graduate AI programs that are offered. The college seems to offer many opportunities for their students.

Pursuing a computer science major is my long-term goal, and I would like to start by earning my bachelor's degree in computer science from Auburn University.

I have attached my transcripts and essay below. I appreciate your time and look forward to hearing from you.

Sincerely,

Hale Akbas
